MISSOURI DEPARTMENT OF SOCIAL SERVICES
CHILDREN'S DIVISION - EARLY CHILDHOOD SECTION
CHILD CARE PROVIDER RELATIONS UNIT

CHILD CARE PROVIDER STAFF LISTING

All staff/volunteers must have on file a Tuberculosis (TB) Risk Assessment form completed, signed and dated by a medical professional no more than twelve (12) months prior to hire.

All staff/volunteers responsible for the direct supervision of children must complete any training on specific Health and Safety topics and any training required by the Division.

INSTRUCTIONS: Print the name of the child care provider/facility, DYN, and list the full name for all staff/volunteers as well as their MOPO ID. For each staff/volunteer listed indicate (1) if they have a Tuberculosis Risk Assessment on file by circling YES or NO, and (2) if they have completed required training by circling YES, NO, or N/A for "Not Applicable." If the staff member/volunteer is not required to complete training because they are not responsible for direct supervision of children, make copies and attach additional sheets if necessary.

The child care facility shall ensure weapons and ammunition are stored in locked cabinets and are inaccessible to children.

Compliance

Not Applicable

Reason Item Not Applicable

No weapons or ammunition on site

The child care provider applicant shall be aware and monitor the child care area:

i. To ensure outlets, appliances, and fixtures should be properly installed, in good working order, and tamper resistant.

ii. To ensure electric devices should not be plugged in near a water source.

iii. To ensure appropriate disposal of bio-contaminants.

iv. Is safe from potential air, soil, and water contamination

v. Is safe from toxic or hazardous building materials

vi. Is safe from potential hazards in the surrounding community such as, but not limited to, pesticides, electrical sub-stations, gas lines, propane tanks, industrial facilities, etc.

vii. Is safe from hazards such as dryers, washing machines, gasoline, propane, fireplaces, portable heaters, etc.

o All staff are aware that we should regularly monitor for environmental hazards to ensure all outlets, appliances, and fixtures are in good working order, all electric devices are kept away from water sources, properly dispose of any bio contaminants, monitor the child care area for potential air, soil, and water contamination as well as the area surrounding the facility for potential community hazards, and my facility for hazards such as gasoline, propane, fireplaces, portable heaters, etc.

EMERGENCY PREPAREDNESS AND RESPONSE PLAN

Missouri Registered Child Care Monitoring Unit License-Exempt Checklist Report

No.: 00021

Date: 04/07/2021

Health and Safety Checklist for LEX Child Care Providers (Build 27)

The child care provider applicant shall have a written emergency preparedness and response plan, which is reviewed and updated regularly, completed to include, at a minimum, steps for evacuation, relocation, shelter-in-place, and lock down, and posted in the child care area and readily accessible to parents or guardians. The plan should outline how families will be contacted during an emergency and how they will be notified at the conclusion of the emergency.

The plan should be developed based on the child care provider applicant's knowledge of each child in care's development and abilities in order to keep them safe; how to observe and anticipate behavior to help each child in care avoid danger; and of accommodations for infant and toddlers, children with disabilities, and children with chronic medical conditions.

The plan should outline procedures and contingency plans for preparing for, responding, to, and recovering from emergencies, and any such as:

- i. Lost or missing child
- ii. Injuries or illness requiring medical or dental care
- iii. Mental health emergencies
- iv. Health and safety emergencies involving parents or guardians and visitors to the program
- v. Death of a child or staff member
- vi. The presence of a threatening individual who attempts or success in gaining entrance to the child care area
- vii. Tornado, earthquake, or other natural disaster
- viii. Man-made disasters, including a fire at the child care area
- ix. Emergencies that are unique to the location of the program, such as train derailment, industrial accident, etc.

TRANSPORTATION

The child care facility which, at any time, may transport any child in care, must have a written transportation policy based on state laws and regulations that is known and understood by all staff that addresses the safe transport of children by vehicle. At a minimum, the policy should address:

- i. The safe care of children around vehicles, such as during drop-off and pick-up times.
- ii. A procedure to handle emergencies.
- iii. Parental notification of unscheduled outings at the time of enrollment.
- iv. Children should be seated in a permanent seat in the vehicle and properly restrained by seat belts or child restraint devices in accordance with state and federal laws and regulations.
- v. How devices are installed and used in accordance with manufacturer's instruction
- vi. How identification information, including the name and address of the provider, names of each child, names, addresses, and telephone numbers for each child's parent(s), will be carried in the vehicle and be accessible.
- vii. Children remain seated while the vehicle is in motion and that all doors shall be locked while the vehicle is moving.
- viii. How children will be assisted when entering or leaving a vehicle, including that all loading and unloading should occur from the curbside unless the vehicle is in a protected area or driveway.
- ix. How the child care provider applicant will ensure that children are not left unattended in a vehicle at any time.
- x. The child care provider applicant's plan for making face-to-name counts before leaving the facility, during field trips, and when returning to the facility and how the vehicle will be inspected to ensure no children are left on or under the seats.
- xi. How staff/child ratios are maintained at any time the provider is transporting children.

Missouri Registered Child Care Monitoring Unit License-Exempt Checklist Report

No.: 00021

Date: 04/07/2021

Health and Safety Checklist for LEX Child Care Providers (Build 27)

The child care provider applicant shall have a policy which is known and understood by all staff to ensure proper handwashing and prevention of the transmission of illness that includes, at a minimum:

- i. The child care provider applicant and each staff member shall wash his or her hands with soap and running water after toileting or assisting a child with toileting, prior to food preparation or serving of food, after handling of pets or animals, after diapering a child, and when hands are soiled.
- ii. The child care provider applicant and each staff member shall teach and observe children wash their hands with soap and running water before eating, after toileting, after handling of pets or animals, and when hands are soiled.
- iii. The child care provider applicant nor any staff member shall not work when ill and likely to transmit an illness that might endanger the health or well-being of children.
- iv. The child care provider applicant and each staff member shall ensure that each child in care shall be observed for contagious diseases or other signs of illness on arrival and throughout each day.
- v. The child care provider applicant, or any staff member as appropriate, shall contact a parent or guardian when signs of illness are observed in any child in care. The child care provider applicant shall follow guidelines which outline symptoms that require parental contact and sending a child home as required in 19 CSR 30-60.060 (5-8) (RSMo)

o All staff are aware they must follow all policies, procedures, and practices recommended by federal, state, and local authorities to prevent and control the spread of infection. Staff further understand they must monitor themselves and any child in care for signs and symptoms of illness and follow proper health separation and exclusion criteria as defined in facility policies.

FOOD ALLERGIES - PREVENTION & EMERGENCY RESPONSE

Missouri Registered Child Care Monitoring Unit License-Exempt Checklist Report

No.: 00021

Date: 04/07/2021

Health and Safety Checklist for LEX Child Care Providers (Build 27)

The child care facility shall maintain a written plan for each child with a food allergy that includes, at a minimum:

- i. Instructions, regarding the food(s) to which the child is allergic and steps to take to avoid that food,
- ii. Specific symptoms that indicate a need to administer one or more medications.
- iii. Detailed treatment plan to implement in the event of an allergic reaction, including the names, doses, and methods of prompt administration of any medications.
- iv. The process to notify the parent or guardian immediately of any suspected allergic reactions, as well as, the ingestion of, or contact with, the problem food even if reaction did not occur.
- v. The process to contact the emergency medical services systems immediately whenever epinephrine is administered.
- vi. With parent or guardian permission, the provider shall post each child's food allergies prominently wherever food is prepared or served.

o All staff are aware there is a written food allergy plan for each child with a known food allergy that includes guidance from the child's primary healthcare provider and the parent/guardian to address prevention of the food(s) which cause allergic reaction and a plan to respond in any event of the child's ingestion of or contact with the problem food even if a reaction does not occur.

Following the first year of training, the child care provider applicant and each staff member shall successfully complete six (6) clock hours of training during the registration period and annually thereafter prior to renewal. Training is available through the Missouri Workshop Calendar.

Public School Exception: License-exempt public-school programs may use Professional Development trainings required by their school districts as the six (6) clock hours of annual required training providing documentation of Professional Development attendance. Staff members who do not participate in Professional Development must take six (6) hours of training through the Missouri Workshop Calendar.

Clock Hour Training Report for FIRST PRESBYTERIAN PRESCHOOL

Basic Program Information:
City: MOBILE
Address: 915 E 10TH ST
MOBILE, MO 63401-1901
License Status: License Exempt/Qualifies
License Number/DIN: 00064894
Inspection #: 1711

Report Purpose and Intent: The Program Training Report is generated by the Open Initiative in a Professional Education Network (OPEN) initiative with funding from the Missouri Department of Social Services. It serves as an official record of program staff professional development activities and should not be shared, reproduced, or photographed for any other purpose. The OPEN Initiative works in partnership with state organizations that hold standards for training that meet Missouri's current clock hour training requirements for licensed child care facilities, and collect and compile this data in order to provide a comprehensive listing of staff training. The Missouri Department of Health and Senior Services, Division for Child Care Regulation (DHSS-CCCR), the state agency responsible for training approval, recognizes this report as official documentation confirming annual clock hour training information as required for child care professionals.

Things to Review About the Report:
1. **Listing of Staff:** Staff activities are included in a program report after completing a Missouri Professional Development (MOPD) Registry enrollment form (ER), after a Program Director adds them to the program staff list via the Toolbox. It is the responsibility of the Program Director to maintain a complete staff listing.
2. **Source of Training Data:** All training data has a designated source code to identify where training data originated. The source of the data should be contacted with any questions.
3. **Data Accuracy:** The information contained in this report is current as of the date printed and is only as accurate as the information submitted to and processed by the OPEN Initiative. Please see the OPEN Policy and Procedures Manual on the OPEN website (www.OPENinitiative.org) to review data collection policies and procedures.

Staff where start date occurred after the selected year are listed with "No" for 12 Hours Met.

RECORDKEEPING

- The child care facility shall maintain an accurate register of all children who receive care from the provider. At a minimum, the register shall contain the following information for each child served under the contract with the department:
- The child's full name and date of birth
 - The name, address, email address, phone number and other necessary contact information of each person legally responsible for each child.
 - Allergies to food, medications, insects, or other materials
 - A record showing all immunizations at the appropriate age as recommended by the U.S. Centers for Disease Control and Prevention (CDC) and as required in 19 CSR 30-61.185 (RSMo).
 - Listing of persons authorized to pick-up and drop-off child as approved by person legally responsible for the child
 - For infants, feeding times and amount of breast milk or formula per feeding.

Health and Safety Checklist for LEX Child Care Providers (Build 27)

The child care facility shall maintain a time and attendance register of all children who receive care from the provider. At a minimum, the time and attendance register shall contain the following information for each child served under a subsidized child care contract with the department:

- i. The actual dates and times that a child received subsidized care services showing for each day of service the time that the child arrived and the time that the child was picked up.
- ii. The initials of the person who dropped off the child and the initials of the person who picked up the child.
- iii. The parent shall record the required information at the time the transaction took place.
