LOCAL ORDINANCES, CODES, AND REGULATIONS

The child care facility applicant or registered child care facility must cooperate and allow for an unannounced on-site inspection by the division or designee at initial application and annually thereafter. The on-site inspections shall ensure that the child care applicant's and registered child care provider's facility is in compliance with the following health, safety, fire, and other requirements:

The child care facility shall meet local ordinances, codes, and regulations, particularly with regard to fire safety and smoke or carbon monoxide detectors.

Compliance	Not Applicable
Reason Item Not Applicable	
Verified in DHSS Annual Inspection	

The child care facility shall install and maintain operable smoke and carbon monoxide detectors in accordance with the manufacturer's instructions on the ceiling or wall at a point centrally located in a corridor or other area giving access to rooms used for providing child care services and ensure that when activated the smoke and carbon monoxide detector(s) shall provide an alarm.

Compliance	Not Applicable

EMERGENCY PREPAREDNESS AND RESPONSE PLAN

Missouri Registered Child Care Monitoring Unit License-Exempt Checklist Report

No.: 00031

Date: 03/04/2021

Health and Safety Checklist for LEX Child Care Providers (Build 27)

The child care provider applicant shall have a written emergency preparedness and response plan, which is reviewed and updated regularly, completed to include, at a minimum, steps for evacuation, relocation, shelter-in-place, and lock down, and posted in the child care area and readily accessible to parents or guardians. The plan should outline how families will be contacted during an emergency and how they will be notified at the conclusion of the emergency.

The plan should be developed based on the child care provider applicant's knowledge of each child in care's development and abilities in order to keep them safe; how to observe and anticipate behavior to help each child in care avoid danger; and of accommodations for infant and toddlers, children with disabilities, and children with chronic medical conditions.

The plan should outline procedures and contingency plans for preparing for, responding, to, and recovering from emergencies, and any such as:

- i. Lost or missing child
- ii. Injuries or illness requiring medical or dental care
- iii. Mental health emergencies
- iv. Health and safety emergencies involving parents or guardians and visitors to the program
- v. Death of a child or staff member
- vi. The presence of a threatening individual who attempts or success in gaining entrance to the child care area
- vii. Tornado, earthquake, or other natural disaster
- viii. Man-made disasters, including a fire at the child care area
- ix. Emergencies that are unique to the location of the program, such as train derailment, industrial accident, etc.

TRANSPORTATION

The child care facility which, at any time, may transport any child in care, must have a written transportation policy based on state laws and regulations that is known and understood by all staff that addresses the safe transport of children by vehicle. At a minimum, the policy should address:

- i. The safe care of children around vehicles, such as during drop-off and pick-up times.
- ii. A procedure to handle emergencies.
- iii. Parental notification of unscheduled outings at the time of enrollment.
- iv. Children should be seated in a permanent seat in the vehicle and properly restrained by seat belts or child restraint devices in accordance with state and federal laws and regulations.
- v. How devices are installed and used in accordance with manufacturer's instruction
- vi. How identification information, including the name and address of the provider, names of each child, names, addresses, and telephone numbers for each child's parent(s), will be carried in the vehicle and be accessible.
- vii. Children remain seated while the vehicle is in motion and that all doors shall be locked while the vehicle is moving.
- viii. How children will be assisted when entering or leaving a vehicle, including that all loading and unloading should occur from the curbside unless the vehicle is in a protected area or driveway.
- ix. How the child care provider applicant will ensure that children are not left unattended in a vehicle at any time.
- x. The child care provider applicant's plan for making face-to-name counts before leaving the facility, during field trips, and when returning to the facility and how the vehicle will be inspected to ensure no children are left on or under the seats.
- xi. How staff/child ratios are maintained at any time the provider is transporting children.

PREVENTION AND CONTROL OF INFECTIOUS DISEASES

Missouri Registered Child Care Monitoring Unit License-Exempt Checklist Report

No.: 00031

Date: 03/04/2021

Health and Safety Checklist for LEX Child Care Providers (Build 27)

The child care provider applicant shall have a policy which is known and understood by all staff to ensure proper handwashing and prevention of the transmission of illness that includes, at a minimum:

- i. The child care provider applicant and each staff member shall wash his or her hands with soap and running water after toileting or assisting a child with toileting, prior to food preparation or serving of food, after handling of pets or animals, after diapering a child, and when hands are soiled.
- ii. The child care provider applicant and each staff member shall teach and observe children wash their hands with soap and running water before eating, after toileting, after handling of pets or animals, and when hands are soiled.
- iii. The child care provider applicant nor any staff member shall not work when ill and likely to transmit an illness that might endanger the health or well-being of children.
- iv. The child care provider applicant and each staff member shall ensure that each child in care shall be observed for contagious diseases or other signs of illness on arrival and throughout each day.
- v. The child care provider applicant, or any staff member as appropriate, shall contact a parent or guardian when signs of illness are observed in any child in care. The child care provider applicant shall follow guidelines which outline symptoms that require parental contact and sending a child home as required in 19 CSR 30-60.060 (5-8) (RSMo)

o All staff are aware they must follow all policies, procedures, and practices recommended by federal, state, and local authorities to prevent and control the spread of infection. Staff further understand they must monitor themselves and any child in care for signs and symptoms of illness and follow proper health separation and exclusion criteria as defined in facility policies.

FOOD ALLERGIES - PREVENTION & EMERGENCY RESPONSE

Missouri Registered Child Care Monitoring Unit License-Exempt Checklist Report

No.: 00031

Date: 03/04/2021

Health and Safety Checklist for LEX Child Care Providers (Build 27)

The child care facility shall maintain a written plan for each child with a food allergy that includes, at a minimum:

- i. Instructions, regarding the food(s) to which the child is allergic and steps to take to avoid that food,
- ii. Specific symptoms that indicate a need to administer one or more medications.
- iii. Detailed treatment plan to implement in the event of an allergic reaction, including the names, doses, and methods of prompt administration of any medications.
- iv. The process to notify the parent or guardian immediately of any suspected allergic reactions, as well as, the ingestion of, or contact with, the problem food even if reaction did not occur.
- v. The process to contact the emergency medical services systems immediately whenever epinephrine is administered.
- vi. With parent or guardian permission, the provider shall post each child's food allergies prominently wherever food is prepared or served.

o All staff are aware there is a written food allergy plan for each child with a known food allergy that includes guidance from the child's primary healthcare provider and the parent/guardian to address prevention of the food(s) which cause allergic reaction and a plan to respond in any event of the child's ingestion of or contact with the problem food even if a reaction does not occur.

The child care facility shall maintain a time and attendance register of all children who receive care from the provider. At a minimum, the time and attendance register shall contain the following information for each child served under a subsidized child care contract with the department:

- i. The actual dates and times that a child received subsidized care services showing for each day of service the time that the child arrived and the time that the child was picked up.
- ii. The initials of the person who dropped off the child and the initials of the person who picked up the child.
- iii. The parent shall record the required information at the time the transaction took place.
