MISSOURI DEPARTMENT OF SOCIAL SERVICES
CHILDREN'S DIVISION - EARLY CHILDHOOD SECTION
CHILD CARE PROVIDER RELATIONS UNIT

CHILD CARE PROVIDER STAFF LISTING

All staff/volunteers must have on file a Tuberculosis (TB) Risk Assessment form completed, signed and dated by a medical professional no more than twelve (12) months prior to hire.

All staff/volunteers responsible for the direct supervision of children must complete any training on specific Health and Safety topics and any training required by the Division.

INSTRUCTIONS: Print the name of the child care provider/facility, DNV, and list the full name for all staff/volunteers as well as their MDPO ID. For each staff/volunteer listed indicate (1) if they have a Tuberculosis Risk Assessment on file by circling YES or NO, and (2) if they have completed required training by circling YES, NO, or N/A for "Not Applicable". If the staff member/volunteer is not required to complete training because they are not responsible for direct supervision of children, make copies and attach additional sheets if necessary.

Health and Safety Checklist for LEX Child Care Providers (Build 28)

Compliance Not Applicable

Reason Item Not Applicable

Weapons and ammunition are prohibited within the facility.

The child care provider applicant shall be aware and monitor the child care area:

- i. To ensure outlets, appliances, and fixtures should be properly installed, in good working order, and tamper resistant.
- ii. To ensure electric devices should not be plugged in near a water source.
- iii. To ensure appropriate disposal of bio-contaminants.
- iv. Is safe from potential air, soil, and water contamination
- v. Is safe from toxic or hazardous building materials
- vi. Is safe from potential hazards in the surrounding community such as, but not limited to, pesticides, electrical sub-stations, gas lines, propane tanks, industrial facilities, etc.
- vii. Is safe from hazards such as dryers, washing machines, gasoline, propane, fireplaces, portable heaters, etc.

o All staff are aware that we should regularly monitor for environmental hazards to ensure all outlets, appliances, and fixtures are in good working order, all electric devices are kept away from water sources, properly dispose of any bio contaminants, monitor the child care area for potential air, soil, and water contamination as well as the area surrounding the facility for potential community hazards, and my facility for hazards such as gasoline, propane, fireplaces, portable heaters, etc.

Handwritten signature

OUTDOOR PLAY AREA

The outdoor play area should either be continuously fenced to ensure that the children cannot leave and others cannot enter the premises without supervision, or if not continuously fenced, the child care provider applicant shall have a written, division approved, supervision plan that outlines how children are monitored in the outdoor play area.

Compliance In Compliance

 No litter boxes on site.

PREVENTION OF TRAUMA AND CHILD MALTREATMENT

The child care facility with any infant children in care, shall have a crib for each infant in care that does not pose any harm to the child and follow all safe sleep practices as recommended by the American Academy of Pediatrics (AAP).

Compliance Not Applicable
 Reason Item Not Applicable
 Verified provider does not care for infants.

Missouri Registered Child Care Monitoring Unit License-Exempt Checklist Report

No.: 00014

Date: 03/09/2021

Health and Safety Checklist for LEX Child Care Providers (Build 28)

The child care facility should ensure that all toys and play equipment are in good working order.

o All staff are aware that all toys and play equipment accessible to any child in care is regularly monitored to ensure that they remain in good working condition and are free of any hazards that pose harm to any child in care.

Oliver Brown

The child care facility and all staff shall be aware and understand how to:

- i. Identify and prevent shaken baby syndrome and abusive head trauma
- ii. Recognize the need to notify emergency medical assistance as a first step
- iii. Show an understanding of the dangers of shaking or hitting a baby's head against something, knowing the risk factors and the triggers for abuse, and finding ways to seek help, support parents, and support other caregivers when their stress level is high.
- iv. Show an understanding of strategies for coping with a crying, fussing, or distraught child.

o All staff are aware of strategies for coping with fussy or distraught children and ensure the prevention of any child in care from maltreatment including shaken baby syndrome or other abusive head trauma. The facility has a plan to notify emergency medical personnel should any instance of child maltreatment occur to any child in care.

Oliver Brown

The child care provider applicant and each staff member should recognize as a mandated reporter, what and how to report suspected child abuse and neglect, to be aware of common physical and emotional signs and symptoms of child maltreatment and physical indicators or child behavioral indicators of abuse and neglect, as well as the characteristics of the caretaker, parent or guardian.

o I understand under state law all staff are considered mandated reporters and will report any suspected incidents of child abuse and/or neglect for any child(ren) in care regardless of direction provided by superiors or the parent/guardian.

Oliver Brown

EMERGENCY PREPAREDNESS AND RESPONSE PLAN

Missouri Registered Child Care Monitoring Unit License-Exempt Checklist Report

No.: 00014

Date: 03/09/2021

Health and Safety Checklist for LEX Child Care Providers (Build 28)

The child care provider applicant shall have a written emergency preparedness and response plan, which is reviewed and updated regularly, completed to include, at a minimum, steps for evacuation, relocation, shelter-in-place, and lock down, and posted in the child care area and readily accessible to parents or guardians. The plan should outline how families will be contacted during an emergency and how they will be notified at the conclusion of the emergency.

The plan should be developed based on the child care provider applicant's knowledge of each child in care's development and abilities in order to keep them safe; how to observe and anticipate behavior to help each child in care avoid danger; and of accommodations for infant and toddlers, children with disabilities, and children with chronic medical conditions.

The plan should outline procedures and contingency plans for preparing for, responding, to, and recovering from emergencies, and any such as:

- i. Lost or missing child
- ii. Injuries or illness requiring medical or dental care
- iii. Mental health emergencies
- iv. Health and safety emergencies involving parents or guardians and visitors to the program
- v. Death of a child or staff member
- vi. The presence of a threatening individual who attempts or success in gaining entrance to the child care area
- vii. Tornado, earthquake, or other natural disaster
- viii. Man-made disasters, including a fire at the child care area
- ix. Emergencies that are unique to the location of the program, such as train derailment, industrial accident, etc.

TRANSPORTATION

The child care facility which, at any time, may transport any child in care, must follow transportation requirements based on federal, state, or local laws and regulations that is known and understood by each staff member. The facility should prepare each staff to understand:

- i. The safe care of children around vehicles, such as during drop-off and pick-up times.
 - ii. A procedure to handle emergencies.
 - iii. Parental notification of unscheduled outings at the time of enrollment.
 - iv. Children should be seated in a permanent seat in the vehicle and properly restrained by seat belts or child restraint devices in accordance with state and federal laws and regulations.
 - v. How devices are installed and used in accordance with manufacturer's instruction
 - vi. How identification information, including the name and address of the provider, names of each child, names, addresses, and telephone numbers for each child's parent(s), will be carried in the vehicle and be accessible.
 - vii. Children remain seated while the vehicle is in motion and that all doors shall be locked while the vehicle is moving.
 - viii. How children will be assisted when entering or leaving a vehicle, including that all loading and unloading should occur from the curbside unless the vehicle is in a protected area or driveway.
 - ix. How the child care provider applicant will ensure that children are not left unattended in a vehicle at any time.
 - x. The child care provider applicant's plan for making face-to-name counts before leaving the facility, during field trips, and when returning to the facility and how the vehicle will be inspected to ensure no children are left on or under the seats.
 - xi. How staff/child ratios are maintained at any time the provider is transporting children.
- o All staff are aware they must follow all state and federal regulations to ensure the care, safety, and supervision of any child in care when transporting away from the facility as well as monitoring for safety around vehicles during drop-off and pick-up times and loading and unloading during field trips.

Alison Gami

Date: 03/09/2021

The child care provider applicant shall ensure parents are informed when field trips are planned and maintain records of written parental consent for field trips and transportation. Parental notification is not necessary for short, unscheduled walks.

o All staff are aware they must notify and obtain consent from the parent/guardian(s) of any child in care prior to any field trips or transporting the child away from the facility and written consent shall be maintained.

Handwritten signature

RISK ASSESSMENT FOR TUBERCULOSIS (TB)

The child care provider applicant and all staff members shall submit a "Risk Assessment for Tuberculosis" form, to be completed, signed, and dated by a medical professional no more than twelve (12) months prior to date of hire.

Compliance _____ In Compliance
Technical Assistance Provided (If Any) _____
Verified in DHSS Annual Inspection.

If a child care provider applicant or staff has active, contagious tuberculosis the child care provider applicant or staff must have on file documentation showing that a medical professional has certified that the child care provider applicant or staff is non-infectious before the child care provider may become registered.

Compliance _____ Not Applicable
Reason Item Not Applicable _____
Verified in DHSS Annual Inspection.

PREVENTION AND CONTROL OF INFECTIOUS DISEASES

The child care provider applicant shall ensure each staff member is aware of proper handwashing techniques and appropriate prevention of the transmission of illness that includes, at a minimum:

- i. The child care provider applicant and each staff member shall wash his or her hands with soap and running water after toileting or assisting a child with toileting, prior to food preparation or serving of food, after handling of pets or animals, after diapering a child, and when hands are soiled.
- ii. The child care provider applicant and each staff member shall teach and observe children wash their hands with soap and running water before eating, after toileting, after handling of pets or animals, and when hands are soiled.
- iii. The child care provider applicant nor any staff member shall not work when ill and likely to transmit an illness that might endanger the health or well-being of children.
- iv. The child care provider applicant and each staff member shall ensure that each child in care shall be observed for contagious diseases or other signs of illness on arrival and throughout each day.
- v. The child care provider applicant, or any staff member as appropriate, shall contact a parent or guardian when signs of illness are observed in any child in care. The child care provider applicant shall follow guidelines which outline symptoms that require parental contact and sending a child home as required in 19 CSR 30-60.060 (5-8) (RSMo)

Missouri Registered Child Care Monitoring Unit License-Exempt Checklist Report

No.: 00014

Date: 03/09/2021

Health and Safety Checklist for LEX Child Care Providers (Build 28)

o All staff are aware they must follow all policies, procedures, and practices recommended by federal, state, and local authorities to prevent and control the spread of infection. Staff further understand they must monitor themselves and any child in care for signs and symptoms of illness and follow proper health separation and exclusion criteria as defined in facility policies.

Alison Brown

The child care provider applicant shall ensure each staff member is aware and understands the use of Standard Precautions developed by the U.S. Centers for Disease Control (CDC) to handle potential exposure to blood and other potentially infectious fluids. At a minimum, this policy should outline appropriate hand washing, use of disposable gloves, respiratory hygiene and cough etiquette, and safe handling of potentially contaminated surfaces.

o All staff understand they must follow recommendations from the Centers for Disease Control and Prevention to adopt Standard Precautions in the handling of blood and other potentially infectious fluids.

Alison Brown

ADMINISTRATION OF MEDICATION

The child care facility shall ensure that medication prescribed for one child is never administered to another child.

o All staff are aware they must follow all policies, procedures, and practices regarding the administration of medication and that they must always pay close attention that they are administering the correct medication to the correct child in the approved dosage, method, and at time required by the administering physician.

Alison Brown

The child care facility should return any unused medication to the parent or guardian, or ensure medication is disposed of immediately after it is no longer needed.

o All staff are aware they must follow all policies, procedures, and practices to return all medications to the parent/guardian once the medication is no longer needed and if they are unable to return the medication to the parent/guardian they will follow proper disposal recommendations as defined in facility policies.

FOOD ALLERGIES - PREVENTION & EMERGENCY RESPONSE

The child care facility shall maintain, and review with appropriate staff, a written plan for each child with a food allergy that includes, at a minimum:

- i. Instructions, regarding the food(s) to which the child is allergic and steps to take to avoid that food,
- ii. Specific symptoms that indicate a need to administer one or more medications.
- iii. Detailed treatment plan to implement in the event of an allergic reaction, including the names, doses, and methods of prompt administration of any medications.
- iv. The process to notify the parent or guardian immediately of any suspected allergic reactions, as well as, the ingestion of, or contact with, the problem food even if reaction did not occur.
- v. The process to contact the emergency medical services systems immediately whenever epinephrine is administered.
- vi. With parent or guardian permission, the provider shall post each child's food allergies prominently wherever food is prepared or served.

o All staff are aware there is a written food allergy plan for each child with a known food allergy that includes guidance from the child's primary healthcare provider and the parent/guardian to address prevention of the food(s) which cause allergic reaction and a plan to respond in any event of the child's ingestion of or contact with the problem food even if a reaction does not occur.

REQUIRED TRAINING

The child care provider applicant and all staff members shall register with Opportunities in a Professional Education Network (OPEN) and secure a Missouri Professional Development identifier (MOPD ID) to track and successfully complete all required training as approved by the Division.

RECORDKEEPING

Missouri Registered Child Care Monitoring Unit License-Exempt Checklist Report

No.: 00014

Health and Safety Checklist for LEX Child Care Providers (Build 28)

Date: 03/09/2021

The child care facility shall maintain an accurate register of all children who receive care from the provider. At a minimum, the register shall contain the following information for each child served under the contract with the department:

- The child's full name and date of birth
- The name, address, email address, phone number and other necessary contact information of each person legally responsible for each child.
- Allergies to food, medications, insects, or other materials
- A record showing all immunizations at the appropriate age as recommended by the U.S. Centers for Disease Control and Prevention (CDC) and as required in 19 CSR 30-61.185 (RSMo).
- Listing of persons authorized to pick-up and drop-off child as approved by person legally responsible for the child
- For infants, feeding times and amount of breast milk or formula per feeding.

Compliance Not Applicable

Reason Item Not Applicable

Provider currently does not have any children enrolled. Verified provider has enrollment forms for when children begin to enroll.

The child care facility shall maintain a time and attendance register of all children who receive care from the provider. At a minimum, the time and attendance register shall contain the following information for each child served under a subsidized child care contract with the department:

- The actual dates and times that a child received subsidized care services showing for each day of service the time that the child arrived and the time that the child was picked up.
- The initials of the person who dropped off the child and the initials of the person who picked up the child.
- The parent shall record the required information at the time the transaction took place.

Compliance Not Applicable

Reason Item Not Applicable

Provider currently does not have any children enrolled. Verified provider has access to the KinderCare application for when children are enrolled.
