Health and Safety Checklist for LEX Child Care Providers (Build 31)

The child care facility and all staff shall be aware and understand how to:

- i. Identify and prevent shaken baby syndrome and abusive head trauma
- ii. Recognize the need to notify emergency medical assistance as a first step
- iii. Show an understanding of the dangers of shaking or hitting a baby's head against something, knowing the risk factors and the triggers for abuse, and finding ways to seek help, support parents, and support other caregivers when their stress level is high.
- iv. Show an understanding of strategies for coping with a crying, fussing, or distraught child.

*Provider	signature	captured	on Attest	ation	Page

The child care provider applicant and each staff member should recognize as a mandated reporter, what and how to report suspected child abuse and neglect, to be aware of common physical and emotional signs and symptoms of child maltreatment and physical indicators or child behavioral indicators of abuse and neglect, as well as the characteristics of the caretaker, parent or guardian.

*Provider signature captured on Attestation Page

EMERGENCY PREPAREDNESS AND RESPONSE PLAN

The child care provider applicant shall have a written emergency preparedness and response plan, which is reviewed and updated regularly, completed to include, at a minimum, steps for evacuation, relocation, shelter-in-place, and lock down, and posted in the child care area and readily accessible to parents or guardians. The plan should outline how families will be contacted during an emergency and how they will be notified at the conclusion of the emergency.

The plan should be developed based on the child care provider applicant's knowledge of each child in care's development and abilities in order to keep them safe; how to observe and anticipate behavior to help each child in care avoid danger; and of accommodations for infant and toddlers, children with disabilities, and children with chronic medical conditions.

The plan should outline procedures and contingency plans for preparing for, responding, to, and recovering from emergencies, and any such as:

- i. Lost or missing child
- ii. Injuries or illness requiring medical or dental care
- iii. Mental health emergencies
- iv. Health and safety emergencies involving parents or guardians and visitors to the program
- v. Death of a child or staff member
- vi. The presence of a threatening individual who attempts or success in gaining entrance to the child care area
- vii. Tornado, earthquake, or other natural disaster
- viii. Man-made disasters, including a fire at the child care area
- ix. Emergencies that are unique to the location of the program, such as train derailment, industrial accident, etc.

Technical Assistance Provided (If Any)

TRANSPORTATION

The child care facility which, at any time, may transport any child in care, must follow transportation requirements based on federal, state, or local laws and regulations that is known and understood by each staff member. The facility should prepare each staff to understand:

- i. The safe care of children around vehicles, such as during drop-off and pick-up times.
- ii. A procedure to handle emergencies.
- iii. Parental notification of unscheduled outings at the time of enrollment.
- iv. Children should be seated in a permanent seat in the vehicle and properly restrained by seat belts or child restraint devices in accordance with state and federal laws and regulations.
- v. How devices are installed and used in accordance with manufacturer's instruction
- vi. How identification information, including the name and address of the provider, names of each child, names, addresses, and telephone numbers for each child's parent(s), will be carried in the vehicle and be accessible.
- vii. Children remain seated while the vehicle is in motion and that all doors shall be locked while the vehicle is moving.
- viii. How children will be assisted when entering or leaving a vehicle, including that all loading and unloading should occur from the curbside unless the vehicle is in a protected area or driveway. ix. How the child care provider applicant will ensure that children are not left unattended in a vehicle at any time.
- x. The child care provider applicant's plan for making face-to-name counts before leaving the facility, during field trips, and when returning to the facility and how the vehicle will be inspected to ensure no children are left on or under the seats.
- xi. How staff/child ratios are maintained at any time the provider is transporting children.

*Provider signature captured on Attestation Page								

The child care provider applicant shall ensure parents are informed when field trips are planned and maintain records of written parental consent for field trips and transportation. Parental notification is not necessary for short, unscheduled walks.

*Provider signature captured on Attestation Page

TUBERCULOSIS (TB) RISK ASSESSMENT AND TB TEST

No.: 00111 Date: 09/22/2022

Health and Safety Checklist for LEX Child Care Providers (Build 31)

Tuberculosis Risk Assessment -

The child care provider applicant and all staff members shall submit a "Risk Assessment for Tuberculosis" form, to be completed, signed, and dated by a medical professional no more than twelve (12) months prior to date of hire.

Compliance Not Applicable

Reason Not Applicable Compliance was verified during the annual

DHSS inspection.

Tuberculosis Test -

If a child care provider applicant or staff has active, contagious tuberculosis - The child care provider applicant or staff must have on file documentation showing that a medical professional has certified that the child care provider applicant or staff is non-infectious before the child care provider may become registered.

Compliance Not Applicable

Reason Item Not Applicable Compliance was verified during the annual

DHSS inspection.

PREVENTION AND CONTROL OF INFECTIOUS DISEASES

The child care provider applicant shall ensure each staff member is aware of proper handwashing techniques and appropriate prevention of the transmission of illness that includes, at a minimum:

- i. The child care provider applicant and each staff member shall wash his or her hands with soap and running water after toileting or assisting a child with toileting, prior to food preparation or serving of food, after handling of pets or animals, after diapering a child, and when hands are soiled.
- ii. The child care provider applicant and each staff member shall teach and observe children wash their hands with soap and running water before eating, after toileting, after handling of pets or animals, and when hands are soiled.
- iii. The child care provider applicant nor any staff member shall not work when ill and likely to transmit an illness that might endanger the health or well-being of children.
- iv. The child care provider applicant and each staff member shall ensure that each child in care shall be observed for contagious diseases or other signs of illness on arrival and throughout each day.
- v. The child care provider applicant, or any staff member as appropriate, shall contact a parent or guardian when signs of illness are observed in any child in care. The child care provider applicant shall follow guidelines which outline symptoms that require parental contact and sending a child home as required in 19 CSR 30-60.060 (5-8) (RSMo)

*Provider signature captured on Attestation Page

The child care provider applicant shall ensure each staff member is aware and understands the use of Standard Precautions developed by the U.S. Centers for Disease Control (CDC) to handle potential exposure to blood and other potentially infectious fluids. At a minimum, this policy should outline appropriate hand washing, use of disposable gloves, respiratory hygiene and cough etiquette, and safe handling of potentially contaminated surfaces.

*Provider signature captured on Attestation Page

ADMINISTRATION OF MEDICATION

No.: 00111 Date: 09/22/2022

Health and Safety Checklist for LEX Child Care Providers (Build 31)

The child care facility shall maintain a Medication and Administration Log for each child in care who requires any medication during care hours. The Medication and Administration Log shall be maintained in a confidential location available only to the child care provider applicant and the parent or guardian.

- i. The Medication and Administration Log shall, at a minimum, include the child's name, name of medication, dosage of medication, and frequency of administration signed and dated by the parent or guardian indicating written permission to administer.
- ii. The Medication and Administration Log shall, at minimum, include the date and time of each medication administration, the name of the individual administering the medication, the quantity of the medication give.

Compliance	Not Applicable
Reason Item Not Applicable	Compliance was verified during annual
	DHSS inspection.

The child care facility shall ensure that medication prescribed for one child is never administered to another child.

*Provider signature captured on Attestation Page

The child care facility shall ensure that all medications are in the original containers and labeled with the child's name, instructions for administration, and the physician's name and contact information.

Compliance Not Applicable Compliance was verified during annual DHSS inspection.

The child care facility shall ensure that all medications have child-resistant caps and be stored away from food at the proper temperature and are inaccessible to children.

Compliance
Reason Item Not Applicable

Compliance was verified during annual DHSS inspection.

The child care facility should return any unused medication to the parent or guardian, or ensure medication is disposed of immediately after it is no longer needed.

o I understand that cleaning, sanitizing, and disinfecting products should never be used in close proximity to the children in my care and that proper ventilation should be maintained when using such products.

The child care provider applicant shall be aware and regularly monitor the child care area:

Klickett

i. To ensure outlets, appliances, and fixtures are properly installed, in good working order, and tamper resistant;

ii. To ensure electric devices should not be plugged in near a water source;

iii. To ensure appropriate disposal of bio-contaminants;

iv. Is safe from potential air, soil, and water contamination;

v. Is safe from toxic or hazardous building materials;

vi. Is safe from potential hazards in the surrounding community such as, but not limited to, pesticides, electrical sub-stations, gas lines, propane tanks, industrial facilities, etc.;

vii. Is safe from hazards in the home, such as dryers, washing machines, gasoline, propane, fireplaces, portable heaters, etc.

No.: 00111 Date: 09/22/2022

Health and Safety Checklist for LEX Child Care Providers (Build 31)

o I understand that I should regularly monitor for environmental hazards such as all outlets, appliances, and fixtures are in good working order, keep all electric devices away from water sources, ensure proper disposal of bio contaminants, monitor the child care area for potential air, soil, and water contamination, and the area surrounding my child care area for potential community hazards, and my child care area for hazards such as gasoline, propane, fireplaces, portable heaters, etc.

The child care provider applicant should ensure that all toys and play equipment are in good working order.

Klickett)

Klirkoff

o I understand that all toys and play equipment accessible to any child(ren) in care are regularly monitored to ensure that they remain in good working condition and are free of any hazards that pose harm to any child(ren) in care.

The child care provider applicant shall be aware and understand how to:

- i. Identify and prevent shaken baby syndrome and abusive head trauma;
- ii. Recognize the need to notify emergency medical assistance as a first step;
- iii. Show an understanding of the dangers of shaking or hitting a baby's head against something, knowing the risk factors and the triggers for abuse, and finding ways to seek help, support parents, and support other caregivers when their stress level is high;
- iv. Show an understanding of strategies for coping with a crying, fussing, or distraught child.
- o I understand the importance of strategies for coping with fussy or distraught children and ensure the prevention of any child(ren) in my care from maltreatment including shaken baby syndrome or other abusive head trauma. I further have a plan to notify emergency medical personnel should any instance of child maltreatment occur in my care.

KPICKETO

The child care provider applicant should recognize as a mandated reporter, what and how to report suspected child abuse and neglect, to be aware of common physical and emotional signs and symptoms of child maltreatment and physical indicators or child behavioral indicators of abuse and neglect, as well as the characteristics of the caretaker, parent or guardian.

No.: 00111 Date: 09/22/2022

Health and Safety Checklist for LEX Child Care Providers (Build 31)

o I understand under state law I am considered a mandated reporter and will report any suspected incidents of child abuse and/or neglect for any child(ren) in care regardless of direction provided by superiors or the parent/guardian.

The child care provider applicant shall practice escape plans included within the emergency preparedness and response plan.

o I understand the importance of, and complete, regular evacuation drills to ensure I, and any child(ren) in care are able to complete the evacuation and shelter-in-place plans included in my emergency preparedness plan.

The child care provider applicant who at any time, may transport any child in care, must follow transportation requirements based on federal, state, or local laws and regulations that addresses the safe transport of children by vehicle. At a minimum, the provider should understand:

Klickett

- i. The safe care of children around vehicles, such as during drop-off and pick-up times.
- ii. A procedure to handle emergencies.
- iii. Parental notification of unscheduled outings at the time of enrollment.
- iv. Children should be seated in a permanent seat in the vehicle and properly restrained by seat belts or child restraint devices in accordance with state and federal laws and regulations.
- v. How devices are installed and used in accordance with manufacturer's instruction
- vi. How identification information, including the name and address of the provider, names of each child, names, addresses, and telephone numbers for each child's parent(s), will be carried in the vehicle and be accessible.
- vii. Children remain seated while the vehicle is in motion and that all doors shall be locked while the vehicle is moving.
- viii. How children will be assisted when entering or leaving a vehicle, including that all loading and unloading should occur from the curbside unless the vehicle is in a protected area or driveway. ix. How the child care provider applicant will ensure that children are not left unattended in a vehicle a
- ix. How the child care provider applicant will ensure that children are not left unattended in a vehicle at any time.
- x. The child care provider applicant's plan for making face-to-name counts before leaving the facility, during field trips, and when returning to the facility and how the vehicle will be inspected to ensure no children are left on or under the seats.
- xi. How staff/child ratios are maintained at any time the provider is transporting children.

No.: 00111 Date: 09/22/2022

Health and Safety Checklist for LEX Child Care Providers (Build 31)

o I understand that I must follow all state and federal regulations to ensure the care, safety, and supervision of any child(ren) in my care when transporting away from the facility as well as safety around vehicles during drop-off and pick-up times and loading and unloading	
during field trips.	
	Krickel

The child care provider applicant shall ensure parents are informed when field trips are planned and maintain records of written parental consent for field trips and transportation. Parental notification is not necessary for short, unscheduled walks.

o I understand I must notify and obtain, and keep on file, consent from the parent/guardian(s) of any child(ren) in care prior to any field trips or transporting the child away from the facility.

The child care provider applicant shall be aware of and understand proper handwashing techniques and appropriate prevention of the transmission of illness that includes, at a minimum:

- i. The child care provider applicant shall wash his or her hands with soap and running water after toileting or assisting a child with toileting, prior to food preparation or serving of food, after handling of pets or animals, after diapering a child, and when hands are soiled.
- ii. The child care provider applicant shall teach and observe children wash their hands with soap and running water before eating, after toileting, after handling of pets or animals, and when hands are soiled.
- iii. The child care provider applicant shall not work when ill and likely to transmit an illness that might endanger the health or well-being of children.
- iv. The child care provider applicant shall ensure that each child in care shall be observed for contagious diseases or other signs of illness on arrival and throughout each day.
- v. The child care provider applicant shall contact a parent or guardian when signs of illness are observed in any child in care. The child care provider applicant shall follow guidelines which outline symptoms that require parental contact and sending a child home as required in 19 CSR 30-60.060 (5-8) (RSMo)
- o I understand I must follow all policies, procedures, and practices recommended by federal, state, and local authorities to prevent and control the spread of infection. I also agree to monitor myself and any child(ren) in care for signs and symptoms of illness and follow proper health separation and exclusion criteria.

Health and Safety Checklist for LEX Child Care Providers (Build 31)

The child care provider applicant shall be aware and understand the use of Standard Precautions developed by the U.S. Centers for Disease Control (CDC) to handle potential exposure to blood and other potentially infectious fluids. At a minimum, this policy should include hand washing, use of disposable gloves, respiratory hygiene and cough etiquette, and safe handling of potentially contaminated surfaces.

Kfickett

Krickell

Krepth

o I understand I must follow recommendations from the Centers for Disease Control and Prevention to adopt Standard Precautions in the handling of blood and other potentially infectious fluids.

The child care provider applicant shall ensure that medication prescribed for one child is never administered to another child.

o I understand I must follow all policies, procedures, and practices regarding the administration of medication and that I must always pay close attention that I am administering the correct medication to the correct child in the approved dosage, method, and at time required by the administering physician.

The child care provider applicant should return any unused medication to the parent or guardian, or ensure medication is disposed of immediately after it is no longer needed.

o I understand I must follow all policies, procedures, and practices to return all medications to the parent/guardian once the medication is no longer needed and if I am unable to return the medication to the parent/guardian I will follow proper disposal recommendations.

No.: 00111 Date: 09/22/2022

Health and Safety Checklist for LEX Child Care Providers (Build 31)

The child care provider applicant shall maintain a written plan for each child with a food allergy that includes, at a minimum:

- i. Instructions, regarding the food(s) to which the child is allergic and steps to take to avoid that food,
- ii. Specific symptoms that indicate a need to administer one or more medications.
- iii. Detailed treatment plan to implement in the event of an allergic reaction, including the names, doses, and methods of prompt administration of any medications.
- iv. The process to notify the parent or guardian immediately of any suspected allergic reactions, as well as, the ingestion of, or contact with, the problem food even if reaction did not occur.
- v. The process to contact the emergency medical services systems immediately whenever epinephrine is administered.
- vi. With parent or guardian permission, the provider shall post each child's food allergies prominently wherever food is prepared or served.
- o I understand I should have a written food allergy plan for each child with a known food allergy which includes guidance from the child's primary healthcare provider and the parent/guardian to address prevention of the food(s) which cause allergic reaction and a plan to respond in any event of the child's ingestion of or contact with the problem food even if a reaction does not occur.
