CONCLUSION SUMMARY

Child Care compliance has determined the allegations of this complaint to be substantiated. The determination is based on documentation reviewed through the course of the investigation, observations made by CI Ray-Warnke and interviews conducted with the director Marilyn Hoffman, caregiver Amanda (Mandy) Engelbrecht, Laurie Koestner, Rebecca Miner, The Mother of Child A and The Father of Child A.

RSMo 210.254.2.(3) states; The staff/child ratios for enrolled children under two years of age, for children ages two to four and for those five years of age and older as required by the department of health and senior services regulations in licensed facilities, the standard ratio of staff to number of children for each age level maintained in the exempt facility, and the total number of children to be enrolled by the facility;

On Wednesday November 10, 2021 at 10:00am CI Ray-Warnke observed Laurie Koestner with 12 children, six children age 4 and six children age 5. The NPR for Presbyterian Preschool states; There are to be no more than 13 four and five year olds on Mondays, Tuesday, Wednesday, Thursdays and Fridays with a teacher and assistant. These ratios meet those required for licensing which are 1 adult to 8 children for 2 year old's, 1 adult to 10 children for 3 and 4 year old's, and 1 adult to 16 children who are 5 year's old. CI Ray-Warnke discussed with the director Marilyn Hoffman and caregiver Laurie Koestner upon arrival that the NPR was observed as not followed in the preschool room. At 10:15am Laurie Koestner and Marilyn Hoffman moved two children age 4 to Rebecca Miner's room. Rebecca Miner at 10:00am was observed with 5 children age 4. (NPR Age 4 1:10). At 10:15am Rebecca Miner's room was observed with 7 children age 4. (NPR Age 4 1:10). Laurie Koestner's room was observed at 10:17 am to have 10 children, four children age 4 and six children age 5. (NPR Age 4 1:10, NPR Age 5 1:16).

On Wednesday November 10, 2021 Laurie Koestner stated that she is not normally in a room alone with more than 10 children. Laurie stated that she usually has an assistant in the room with her. Laurie Koestner said that she did not know why an assistant was not in her room. Laurie Koestner stated that the ratio in her room is 1 to 10 for children age 4. Marilyn Hoffman stated on November 10, 2021 that she did not know that the NPR did not clearly state that on Wednesday's a teacher can be in a classroom without an assistant and 13 children ages 3 and 4. Marilyn Hoffman said that she did know that the NPR stated that children age 4 are at 1 adult to 10 and children age 5 are at 1 adult to 16. Marilyn Hoffman stated on November 10, 2021 that she did not know that if you mixed children that were age 4 and 5 that you could only have 10 children in the classroom, because the NPR for children age 4 is stated in the NPR and parent handbook as 1 adult to 10. Marilyn Hoffman said that she did know that the NPR stated that; there will be no more than 13 four year old's on Mondays, Wednesday and

Fridays (or all five days if the family chooses this option) with a teacher and assistant. Marilyn Hoffman stated that she would revise her NPR immediately at the conclusion of the interviews, because she didn't realize how unclear and confusing her NPR was. Marilyn Hoffman on November 10, 2021 stated that she did know that it was Wednesday. Marilyn Hoffman stated on November 10, 2021 that she is usually the assistant in the room with Miss Laurie but she had to leave the building to run errands.

If a caregiver is in the gym alone children cannot be supervised in the hallway by the bathrooms. If a caregiver is alone in the hallway supervising children in the bathroom children cannot be supervised in the gym.
