Indoor play equipment and materials shall be provided and shall be clean and in good condition with all parts intact. Infants and toddlers shall have safe toys. Toys, parts of toys or other materials small enough to be swallowed shall not be used.

CONCLUSION SUMMARY

The Office of Childhood has determined that the allegation of toys being stored in the bathroom is substantiated based on observations made by Compliance Inspector (CI) JD Greer and an interview conducted with Director Sue Arensburg on January 20, 2022.

5 CSR 25-300.090 (7) which states, "Indoor play equipment and materials shall be provided and shall be clean and in good condition with all parts intact. Infants and toddlers shall have safe toys. Toys, parts of toys or other materials small enough to be swallowed shall not be used."

On January 20, 2022, CI Greer observed 2 containers of toys in the bathroom between rooms 56 and 57 at Platte Woods UMC. The containers were on top of one of two toilets in the bathroom space. The first container was a translucent plastic tote that contained what appeared to be colored blocks. The second container was a cardboard box that was closed and the contents was not visible.

Director Sue Arensburg stated that the toys had been in the bathroom for approximately two months. They had initially moved the containers into the room due to classrooms being deep cleaned.
