CONCLUSION SUMMARY

Compliance Inspector (CI) Jessica Graham investigated the allegation that the provider is serving all the children in the child care center powdered milk. This allegation is unsubstantiated based on the following information:

5 CSR 25-500.202(1)(H) which states: "The water and milk supply, and the method of dispensing, shall be approved by local or state health authorities, or both. Powdered milk shall not be used except for cooking purposes. Milk substitutes shall not be used for drinking or cooking."

On September 22, 2022, Connie Bobo stated that the facility did serve powdered milk to the children one day. They were not aware that it was not allowed until they read in the rule book after serving.

On September 22, 2022, assistant director Colleen Kaclin stated that once they found out that the powdered milk was not allowed, they immediately went and got milk from the store to serve the remainder of the day.

On September 22, 2022, director Julie Goings stated that she looked in the licensing rule book and saw that powdered milk was not allowed to be served. Once she realized, she made the changes to regular milk at that time.
