RULE/STATUTE VIOLATION(S)

VIOLATION(S)

RSMo 210.211.1

It shall be unlawful for any person to establish, maintain or operate a child-care facility for children, or to advertise or hold himself or herself out as being able to perform any of the services as defined in section 210.201, without having in effect a written license granted by the department of elementary and secondary education.

CONCLUSION SUMMARY

Compliance Inspector (CI) Jessica Glover conducted an investigation regarding the allegation that the facility was not licensed but was operating a before and after school program, as well as day camps for days that public school was not in session. The allegation is substantiated based on the following information:

RSMo 210.211.1 which states: "It shall be unlawful for any person to establish, maintain or operate a child-care facility for children, or to advertise or hold himself or herself out as being able to perform any of the services as defined in section 210.201, without having in effect a written license granted by the department of health and senior services."

On November 9, 2022, Danielle Johnston stated that the facility was once licensed as it had received a temporary license in 2020 during the COVID-19 pandemic. Even though that license closed, the facility continued to operate summer camps and provide care before and after school, as well as on days when the public schools were closed. She was under the impression she was not needing an active license to continue with child care. She now understands and will do what is needed to operate legally.

On November 9, 2022, Angie Fritsch stated that the facility cares for school-aged children before and after school, as well as for summer camps. She was not aware that the facility was operating illegally. She now understands and will do what is needed to operate legally.

On November 9, 2022, CI Glover conducted a walkthrough of the facility to observe and document child attendance. Twenty-nine children were observed in care.
